- 1255cm<sup>3</sup> liquid-cooled fuel-injected DOHC engine for extra-smooth acceleration and relaxed highway cruising.
- Well-exposed, symmetrical-layout (center-cam-drive) powerplant forms the core of the Bandit's beautiful naked bike appearance.
- Suzuki Dual Throttle Valve (SDTV) fuel injection brings better response feel, smoother power output, and reduced emissions.
- Long-wearing, tough Suzuki Composite Electrochemical Material (SCEM) cylinder-bore plating.
- Secondary balancer shaft enhances the engine's smooth operation.

- Liquid-cooled oil cooler helps keep the engine running cool.
- 6-speed transmission with gear ratios chosen for powerful accelerations and smooth highway cruising.
- ABS (Antilock Brake System) monitors brake lever input and wheel speed, and matches stopping power to available traction. (Bandit 1250SA only)\*
- Classic tube-frame chassis, with rake and trail chosen for an excellent balance between sporty handling and highway cruising comfort.
- 43mm-stanchion-tube front forks and single rear shock absorber, both are spring-preload-adjustable.

- Fully floating 310mm-disc dual front brakes with 4-piston calipers. 240mm-disc rear brake with single-piston caliper.
- Seat height can be adjusted up or down 20mm by flipping over mounting spacers.
- Round headlight, bullet-shaped instrument bodies and streamlined color-coordinated trim between them.
- Analog tachometer, LCD digital speedometer, LCD fuel gauge and clock, and LED indicator lamps.

\* Please note that ABS is a supplemental device for brake operation, not a device for shortening stopping distance. Always remember to reduce speed sufficiently before approaching curves and corners.
