

Category	Data Item	Description
Data of OBFCM (On-Board Fuel and/or Energy Consumption Monitoring)	Reporting Period	Year of data collection
	Total Fuel Consumption	Total fuel consumed (lifetime) (litres)
	Total Driving Distance	Total distance travelled (lifetime) (km)
	Total Driving Distance during Charge Depletion Operation with Engine Off	Distance travelled (lifetime) in charge depleting operation with engine off (km)
	Total Driving Distance during Charge Depletion Operation with Engine On	Distance travelled (lifetime) in charge depleting operation with engine running (km)
	Total Driving Distance during Driver-Selectable Charge Increase Operation	Distance travelled (lifetime) in driver-selectable charge increasing operation (km)
	Total Fuel Consumption during Charge Depletion Operation	Fuel consumed (lifetime) in charge depleting operation (litres)
	Total Fuel Consumption during Driver-Selectable Charge Increase Operation	Fuel consumed (lifetime) in driver-selectable charge increasing operation (litres)
	Total Grid Energy into Battery	Total grid energy into the battery (lifetime) (kWh)
Record of Software Update (Controller Reprogramming)	ECU Category	Type of ECU
	Date of Vehicle Diagnosis	Date and time when the ECU was diagnosed by the scan tool
	Date of Software Update	Date and time when the ECU was reprogrammed
	Field SW ID	Software ID of the ECU where the ECU was diagnosed
	Field SW Ver.	Software version of the ECU where the ECU was diagnosed (before and after reprogramming)
