

20 April, 2014

Overview of Suzuki exhibits for the 2014 Beijing International Automotive Exhibition

Suzuki Motor Corporation has made world premiere of the C-segment sedan concept model Concept ALIVIO, and China premiere of the compact SUV concept model iV-4 at the 2014 Beijing International Automotive Exhibition, which is being held in Beijing, China from 20 April, 2014*.

*Press day: 20 April. Public days: 21 to 29 April.

By exhibiting automobiles, large-displacement motorcycle models, and new outboard motor models, Suzuki will appeal its overall strength.

Suzuki plans to produce and distribute production models based on Concept ALIVIO within 2014 and iV-4 within 2015 at its joint venture in China, Chongqing Changan Suzuki Automobile Co., LTD. By introducing a C-segment, which has the largest volume in the Chinese automobile market, and an SUV, which is growing in popularity in China, Suzuki will seek to expand its sales.

<Concept model>

Concept ALIVIO

Concept ALIVIO is a further refinement toward production model of the AUTHENTICS, a model exhibited at the Shanghai International Automobile Industry Exhibition held in April 2013.

<Features>

- Low and wide styling which gives a sense of stability.
- Sporty & Noble design by adopting smooth curved surface and sharp character lines.
- 1586cm³ water-cooled, four-stroke in-line four-cylinder DOHC 16-valve VVT gasoline engine, with increased output and improved fuel efficiency by reduction of weight and frictional resistance.
- Newly-developed, lightweight and compact six-speed automatic transmission with improved fuel efficiency.
- Overall length 4,545mm x overall width 1,730mm x overall height 1,475mm

iV-4

iV-4 is concept model which has realized strong compact SUV design and driving performance by adopting next-generation 4WD system ALLGRIP, in addition to a design with futuristic touches such as the illuminated grille while inheriting traditional Suzuki SUV design.

<Other exhibits>
