Suzuki Announces FY2020 Vehicle Recycling Results in Japan

Suzuki Motor Corporation has announced the results of vehicle recycling for FY2020 (April 2020 to March 2021) in Japan, based on the Japan Automobile Recycling Law^{*1}.

In line with the legal mandate, Suzuki is responsible for promoting appropriate treatment and recycling of automobile shredder residue (ASR), airbags, and fluorocarbons through recycling fee deposited from customers.

Recycling of these materials are appropriately, smoothly, and efficiently conducted by consigning the treatment to Japan Auto Recycling Partnership as for airbags and fluorocarbons, and to Automobile Shredder Residue Recycling Promotion Team^{*2} as for ASR.

The total cost of recycling these materials was 3,660 million yen. Recycling fees and income generated from the vehicle-recycling fund totalled 3,958 million yen, contributing to a net surplus of 298 million yen.

For the promotion of vehicle recycling, Suzuki contributed a total of 235 million yen from the above net surplus, to the Japan Foundation for Advanced Auto Recycling, and 86 million yen for the advanced recycling business of the Company.

For the mid-and long-term, Suzuki continues to make effort in stabilizing the total recycling costs.

Moreover, besides the recycling costs, the Company bears 119 million yen as management-related cost of Japan Automobile Recycling Promotion Center and recycling-related cost of ASR.

The results of collection and recycling of the materials are as follows.

1. ASR

- 57,148.7 tons of ASR were collected from 418,527 units of end-of-life vehicles
- Recycling rate was 96.4%, exceeding the legal target rate of 70%

2. Airbags

- 1,537,938 units of airbags were collected from 347,050 units of end-of-life vehicles
- Recycling rate was 94.9%, exceeding the legal target rate of 85%

3. Fluorocarbons

- 80,395.6kg of fluorocarbons were collected from 384,134 units of end-of-life vehicles

*1 Law Concerning Recycling Measures of End-of-Life Vehicles

*2 Team for making appropriate treatment of ASR.
