## **Suzuki Announces New Mobile App for Outboard Motors, Suzuki Diagnostic System Mobile Plus (SDSM+)**

Suzuki Motor Corporation announced the launch of a new mobile app to support the marine experience of our customers, the Suzuki Diagnostic System Mobile Plus (SDSM+), at the Miami International Boat Show, being held in Miami Florida, USA, from 16 to 20 February 2022. The app for Android™\*1 devices has been released in January, and the iOS\*2 version will also be released accordingly.

### **< 3 Features of the SDSM+ >**

#### **1. Checking the surrounding environment of the boating date**

- Users can check the weather, wind direction, wind speed, and wave height of a designated point for a week and make boating plans by referring to the information.
- By setting the boating date, users can check the updated weather every time they open the app, which ensures worry-free preparations.

#### **2. Assisted pre-departure inspections**

- Users can inspect the outboard motor and boat thoroughly by referring to the checklist on the app.

#### **3. Acquiring engine and driving tendency data**

By reading the QR code\*3 displayed on the Suzuki Multi-function Gauge / Suzuki Multi-function Display\*4 with the app, users can:

- Check the status of the engine, driving tendency, and recommended time for next oil change.
- Send the engine data to the service dealers in advance, to shorten the service time.

Yasuharu Osawa, Managing Officer, Executive General Manager, Marine Operations, Suzuki, said regarding this new app, *“We have developed this app in the hopes to provide a convenient boating experience to the users of our Suzuki outboard motors. The app contains many features that allow customers to swiftly acquire the necessary information, and we hope you enjoy a rich marine experience by utilizing this app.”*

Suzuki Motor Corporation will continue to meet user expectations and provide valuable products and services that are demanded by our customers.
