

Suzuki Unveils the All-New Brezza compact SUV in India

Maruti Suzuki India Limited, a subsidiary of Suzuki Motor Corporation, has today launched its compact SUV, the All-New Brezza in India.

The All-New Brezza is the first full-model change of Vitara Brezza, which was launched in India in 2016 as a stylish urban compact SUV, and has been leading the compact SUV segment sales with accumulated sales of approximately 750,000 units in India.

This new Brezza has evolved its bold, sporty, and powerful SUV exterior styling design by emphasizing the hood and beltline. All-New Brezza with an energetic new design, packed with next-gen features and superior performance, will surely surpass customer expectations. The black and brown dual tone interior with silver accentuation in the instrument panel makes a sporty & urban feel. The All-New Brezza is equipped with an electric sunroof, head-up display and 360 view camera. It also offers built-in Suzuki Connect. Moreover, wider rear seats and new equipment including wireless charging, rear AC vents and fast-charging USB ports contribute to offer higher comfort. The All-New Brezza will be available in 3 contrast dual-tone color options along with 6 bright single tone colors. The newly-installed 1.5L Dual Jet engine offers higher fuel-efficiency.

In India, the SUV segment has been growing in the recent years with the segment accounting for approximately 40% of passenger cars sold in FY2021. Suzuki aims to expand its share in the SUV segment with the All-New Brezza. In addition, by introducing the Suzuki-developed SUV model which will be produced at Toyota Kirloskar Motor Pvt. Ltd. from August, the company will target more than 50% passenger car share in India, which is mentioned in the mid-term management plan.
