Suzuki Unveils the All-New V-STROM 800 Sport Adventure Tourer

V-STROM 800

Suzuki Motor Corporation has unveiled the all-new V-STROM 800 sport adventure tourer. Sales will start in October 2023 globally, primarily in Europe and North America.

The V-STROM 800 is a newly developed variation model of the V-STROM 800DE, which has been on sale from this year. Both models offer optimized balance of rideability required both in daily commuting and in touring as 800cc class models with lightweight and maneuverable features for a wide range of riders. While the V-STROM 800DE was engineered and equipped with features for riding over gravel roads, the V-STROM 800 was developed for high comfortability and driving performance on paved roads and long-distance touring.

In addition to S.I.R.S (Suzuki Intelligent Ride System) electronic control system for various riding conditions, such features as 19-inch wheel and radial-mount brake calipers on the front brake, and tubeless tires on both front and rear are adopted to best suit the driving performance on paved roads.

It is also equipped with height-adjustable wind screen that contributes to ease fatigue in long-distance riding, and a large 20L capacity fuel tank suited for long-distance touring. Comfortability is enhanced with riding position engineered exclusively for the V-STROM 800.

<Main Equipment and Specifications>

		V-STROM 800	Description
Equipment	S.I.R.S (Suzuki Intelligent Ride System)	Ride By Wire	
		SDMS (Suzuki Drive Mode Selector)	Able to choose from 3 different power output characteristics
		Traction Control (3 Modes+OFF)	Limits power output when wheel spin is detected
		Bi-Directional Quick Shift System	Able to shift up/down without clutch and throttle operation
		Suzuki Easy Start System	Can start engine with one quick press of the button
		Low RPM Assist	Assists smooth launch from standing start
		ABS (2 Modes)	
	Wheels	Cast Aluminum Wheels	
	Windscreen	3-position Adjustable	
	Other	USB Socket	
Specifications	Overall Length (mm)	2,255	
	Overall Width (mm)	905	
	Overall Height (mm)	1,355	
	Wheelbase (mm)	1,515	
	Ground Clearance (mm)	185	
	Seat Height (mm)	825	
	Curb Weight (kg)	223	
	Tire (front)	110/80R19M/C Tubeless	
	Tire (rear)	150/70R17M/C Tubeless	
	Engine Type	776cm ³ Liquid-Cooled 4 Cycle Parallel 2-Cylinder DOHC Engine	
	Fuel Tank (L)	20	
	Fuel Consumption (km/L)	22.7	
	CO ₂ Emissions (g/km)	104
