

Suzuki Achieves Accumulated Automobile Production of 4 Million Units in Hungary

Suzuki’s subsidiary in Hungary, Magyar Suzuki Corporation Ltd., has achieved accumulated automobile production of 4 million units on 8 February 2024.

Magyar Suzuki started production in October 1992 with the Swift, and has produced various models including the WagonR+, Suzuki’s first world strategic model Swift, and Splash. The company currently produces two models, namely the Vitara and the S-CROSS. 4 million units was achieved in 31 years and 5 months with the Hungarian specification Vitara.

As the only production hub of Suzuki in Europe, Magyar Suzuki currently makes production not only for Hungary, but also for 123 countries and regions worldwide in areas including Europe and Latin America.
