Suzuki Unveils the All-New DR-Z4S and DR-Z4SM

DR-Z4S

DR-Z4SM

Suzuki Motor Corporation has unveiled the all-new DR-Z4S dual-purpose model and DR-Z4SM supermoto model^{*1} at the EICMA 2024 (Milan Show), which is being held in Milan, Italy from 5 to 10 November 2024^{*2}. Sales for the DR-Z4S will start from April 2025, and the DR-Z4SM from May 2025 in each country, primarily in North America and Europe.

^{*1} Category generated from a race which competes for speed on paved and dirt course with off-road bike equipped with on-road tire.

^{*2} Press days: 5 to 6 November. Public days: 7 to 10 November.

The new DR-Z4S is a dual-purpose model that can be enjoyed in wide range of situations from city to serious off-road riding. The new DR-Z4SM is a supermoto model that allows riders to enjoy various types of riding from daily use to racetrack.

Both models comply with emission, noise and brake regulations without sacrificing agile handling and smooth engine characteristics from low rpm through to the high end.

The newly installed electronic control systems S.I.R.S. (Suzuki Intelligent Ride System) adopts Suzuki Traction Control System including G (gravel) mode, SDMS (Suzuki Drive Mode Selector) and ABS OFF mode to best suit riders' level of skill and road conditions. In addition to an aggressive styling design, it has a modern look with LED lights and LCD instrument panel.

The new DR-Z4S and DR-Z4SM have the optimised tires and dimensions so that each model provides excellent riding performance for the dual-purpose and supermoto models.

<Comment from Representative Director and President Toshihiro Suzuki>

Since we started the motorcycle business in 1952, we have followed our mission statement, “Develop products of superior value by focusing on the customer.” We will continue to address the motorcycle industry's growth with all our might, provide attractive motorcycles that meet our customer's needs and pursue further growth in our motorcycle business.

Main Features and Specifications

		DR-Z4S	DR-Z4SM	Description
Equipment	S.I.R.S. (Suzuki Intelligent Ride System)	Suzuki Drive Mode Selector (Three modes)		Able to opt from 3 different power output characteristics
		Suzuki Traction Control System (Two modes + G mode + OFF)		Limits power output when rear wheel spin is detected
		ABS (Front and Rear OFF mode)	ABS (Rear OFF mode)	
		Ride-by-wire		
		Suzuki easy start system		Can start engine with one quick press of the button without clutch operation
Specs.	Overall L x W x H (mm)	2,270 x 885 x 1,235	2,195 x 885 x 1,190	
	Wheelbase (mm)	1,495	1,465	
	Ground clearance (mm)	300	260	
	Seat height (mm)	920	890	
	Curb weight (kg)	151	154	
	Tire (Front)	80/100-21M/C 51P Tube-type	120/70R17M/C 58H Tube-type	
	Tire (Rear)	120/80-18M/C 62P Tube-type	140/70R17M/C 66H Tube-type	
	Engine type	398cm ³ Liquid-cooled 4-stroke Single-cylinder DOHC		
	Fuel tank (L)	8.7
