

## **Notice regarding Acquisition of All-solid-state Lithium-ion Battery Business from Kanadevia Corporation**

Suzuki Motor Corporation (Headquarters: Hamamatsu, Shizuoka Prefecture; Representative Director and President: Toshihiro Suzuki; hereinafter “Suzuki”) today announced that it has entered into a business transfer agreement with Kanadevia Corporation (Headquarters: Osaka, Osaka Prefecture; Director, President & CEO: Michi Kuwahara; hereinafter “Kanadevia”) to acquire Kanadevia’s all-solid-state lithium-ion battery business, effective July 1, 2026 (hereinafter the “Business Acquisition”).

Kanadevia began the development of all-solid-state lithium-ion batteries in 2006. Through its proprietary dry manufacturing process, Kanadevia’s all-solid-state lithium-ion batteries offer high safety, including the absence of liquid leakage, excellent environmental resistance, and operation across a wide temperature range. These characteristics make them particularly strong for specialized applications such as in aerospace or in high-temperature, vacuum conditions.

Through this Business Acquisition, Suzuki will inherit and further develop the all-solid-state lithium-ion battery technologies cultivated by Kanadevia. The execution of this Business Acquisition is subject to the fulfillment of customary closing conditions.

### **Overview of the Acquired Business**

#### **(1) Description of the Acquired Business**

- All-solid-state lithium-ion battery business  
(including technology development, design, and sales)

#### **(2) Financial Performance, Assets and Liabilities of the Acquired Business**

- Not disclosed

#### **(3) Acquisition Price and Payment Method**

- Acquisition Price: Not disclosed
- Payment Method: Cash
