Suzuki to Display Second Collaboration Motorcycle with CAPCOM's "Street Fighter 6" at "CAPCOM CUP 12"

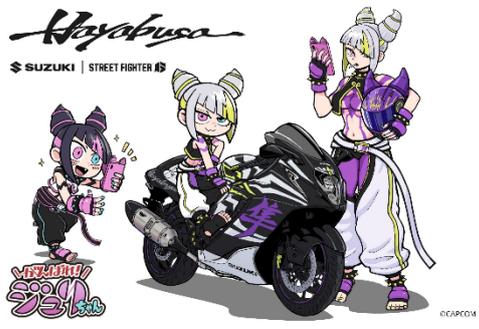

Suzuki Motor Corporation will display the second collaboration motorcycle with CAPCOM CO., LTD. (hereinafter "Capcom") and their popular game "Street Fighter 6". The new model, "Hayabusa Tuned by JURI," will be showcased at the world tournament of the same game, "CAPCOM CUP 12" and "Street Fighter League: World Championship 2025", sponsored by Suzuki.

In contrast to the previous purple-themed collaboration model "GSX-8R Tuned by JURI", this second model is based on Suzuki's flagship "ultimate sportbike," the Hayabusa, and boldly expresses Juri's "alternate form." The design adopts Juri's 2P color (different color variant for player distinction) scheme, white, black, and yellow, arranged dynamically to represent her unwavering pursuit for victory. Combining the high-performance capabilities of the Hayabusa with Juri's relentless quest for strength, this collaboration results in a "next-dimension machine" worthy of her ride.

The “Hayabusa Tuned by JURI” will be displayed at the Suzuki booth during “CAPCOM CUP 12” and “Street Fighter League: World Championship 2025,” which will be held at the Ryogoku Kokugikan from 11 (Wed) to 15 (Sun) March, and visitors can take pictures while sitting on the motorcycle at the photo spot. In addition, original collaboration goods will be distributed to visitors. Please take the opportunity to experience the “Hayabusa Tuned by JURI,” a collaboration motorcycle that ventures into an entirely new realm. Through collaborations between motorcycles and games, we aim to bring joy and richness to the daily lives of our fans.

Overview of “CAPCOM CUP 12” and “Street Fighter League: World Championship 2025” Exhibit

About the "Street Fighter" Series

The "Street Fighter" series, provided by CAPCOM, has been loved worldwide since the release of the original game in 1987, establishing itself as a landmark in competitive fighting games. Players can control a diverse range of characters and enjoy fast-paced, strategic battles. The series has spawned numerous sequels and spin-offs, and the latest title, "Street Fighter 6," achieved sales of 6 million copies worldwide by November 2025.
