Management policy

1. Business operations basic policy
The Group has carried out its operations on the basis of manufacturing of “value-packed products” to satisfy customers since its establishment with the motto “Develop products of superior value by focusing on the customer” in the first paragraph of its mission statement. The Group set “Create a Wow! Beyond customer expectation” as a vision for the Group and make effort to fulfill the motto.
The Group commits itself to make efforts to promote the “production of small and subcompact vehicles” and the “development of environmentally benign products” needed by customers, and “to be small, less, light, short and beautiful” on every side of organization, facilities, parts, environment and so on as well as production, with the slogan, “Small Cars for a Big Future”, and has been working for the efficient, well-knit and healthy management.

2. Basic policies for profit distribution
We determine the profit distribution based on the performances, dividend payout ratio, strengthening of the corporate nature and full internal reserve for future business developments from the medium- to long-term viewpoint, with the emphasis on the continuous and stable distribution.
The Group has a structure in which profits are highly dependent on overseas manufacturing plants. They are mainly located in developing countries, and are therefore subject to exchange rate fluctuations. To achieve stable growth, we need to further enhance our corporate structure and prepare for unforeseen circumstances.
In future years, under the foregoing point of view, we will also determine the profit distribution based on the performance of fiscal year.

3. Corporate governance issues
(1) Basic concepts regarding corporate governance
Through fair and efficient corporate activities, The Company always intends to be trusted by all our stakeholders including shareholders, customers, partner companies, local communities and employees, and to be a continuously growing company, while making a further contribution to the international community. In order to realize that intention, we consider that the enhancement of the corporate governance is one of the most important issues for proper corporate management and aggressively taking various kind of measures.
For the purpose of enabling the agile corporate management and operations and clarifying the individual responsibilities, The Company has reduced the number of Directors (9 Directors including 2 Outside Directors as of 147th Ordinary General Meeting of Shareholders held on June 27, 2013) and introduced a Senior Managing Officer and Managing Officer system. In order to enhance management supervisory and audit function, The Company elected Outside Directors (2 Directors as of 147th Ordinary General Meeting of Shareholders held on June 27, 2013) and Outside Company Auditor (3 Auditors as of 147th Ordinary General Meeting of Shareholders held on June 27, 2013) who are highly independent of The Company. As to internal control system, The Company aim to maintain and manage the system properly by observing basic policy which is resolved by board of Directors based on Company act of Japan, and Internal control reporting system based on Financial Instruments and Exchange Act of Japan.
(2) Organization of The Company

(a) Execution of Operation

(Board of Directors)
In addition to the regular meetings of the Board of Directors held every month, Directors (9 Directors as of 147th Ordinary General Meeting of Shareholders held on June 27, 2013) hold a special board meeting whenever necessary, and discussions including viewpoints of regulatory compliance and corporate ethics are thoroughly conducted in those meetings for decision-making. Combined with participation of Company Auditors at all times, the function of management supervision in meetings of the Board of Directors is working effectively.
In addition, all Directors, excluding Chairman & CEO and Outside Directors, also works as a leader for accomplishment of tasks such as Executive General Manager of each division or other functional units to allow for discussion based on site information at board meetings for making proper decisions in line with actual situations of each department.
In order to clarify managerial accountability for individual Directors and flexibly respond to the changing business environment, the term of each Director is set to one year.

(Corporate Planning Committee)
At the Corporate Planning Committee which is a council-system organization involving 4 Executive Vice President as members, important missions for management at each department are cross-functionally and comprehensively reviewed and basic concepts are adjusted and established. In order to embody the said basic concepts, The Company has Corporate Planning Office.

(Various meeting on execution of operation)
The Company enhances efficiency of management by sharing important information on execution of operation. To achieve that, The Company take various measures such as management councils to discuss the strategic decision on execution of important management issues. Members of the council include Directors, Executive General Managers and Deputy Executive General Managers. Furthermore, Executive including Directors mutually exchange information through weekly meetings to identify administrative issues early and execute operation appropriately.

(Outside Directors)
By electing Outside Directors (2 Directors as of 147th Ordinary General Meeting of Shareholders held on June 27, 2013) who are highly independent of The Company, The Company enhanced supervision to management further, and is receiving helpful advice and indication based on large stock of experience and professional knowledge regarding execution of operation.
(b) Audit and supervision

The Company has adopted a Company Auditor system, and there are 5 members including 3 Outside Company Auditors who are highly independent of The Company and have wide experiences and knowledge in legal matters, management of enterprises, accounting and other areas in order to enhance the audit function and oversight function from outside The Company. In addition, The Company has the audit department. Thus, audits are conducted concerning compliance with laws, internal control and management efficiency from three different angles including independent auditor.

(Board of Company Auditors)

It executes audits on proper management of The Company, in accordance with the Rules of the Board of Company Auditors and audit policies of the corresponding fiscal year, by holding meetings of the Board of Company Auditors, participating in meetings of the Board of Directors, perusing approval documents and various minutes, and receiving reports and explanation from Directors on execution of business, etc. 2 Company Auditors and 1 Outside Company Auditor have large stock of knowledge in finance and accounting due to long experience of being in charge of accounting in The Company as to Company Auditors, and large stock of experience as certified public accountant as to Outside Company Auditor respectively.

(Audit Department)

It audits The Company and domestic and foreign subsidiaries and affiliates, and periodically checks the integrity and efficiency of their internal control system. Results of the checks are reported to management together with suggestions regarding improvement and correction of problems. The audit department also helps to make rules for enhancement of management structures, conducts guidance and supports for compliance with the laws, regulations and rule and promotes efficiency and standardization of their business.

Company Auditors adjust audit plans and auditing themes of the audit department, attend its audit and receive reports and explanation on all its audits whenever necessary. Company Auditors also execute internal auditing and auditing on subsidiaries as Company Auditors' auditing in cooperation with the audit department.

The audit department and Company Auditors exchange information with organization specialized in internal audit, which consists of legal, finance and information system department.

(Independent Auditor)

Seimei Audit Corporation is assigned as an Independent Auditor for The Company. Company Auditors receive explanation from Independent Auditor on audit plans for the corresponding fiscal year, reports on audit on the finance and accounting statements, and also reports on audit on subsidiaries. Company Auditors, audit department and Independent Auditor create a closer connection by exchanging information whenever necessary.

Note: The number of other assistant members for audit: 7 certified public accountants and 9 others.

(c) Function, role and status of Outside Director

In order to strengthen supervision and audit to management further, The Company adopted Outside Director system at 146th Ordinary General Meeting of Shareholders on June 28, 2012 and elected 2 Outside Directors at 147th Ordinary General Meeting of Shareholders held on June 27, 2013. As to 3 Outside Company Auditors, The Company elected Outside Company Auditors who are more independent of The Company.

The Company elected Mr. Masakazu Iguchi as Outside Director to receive appropriate advice related to the management of The Company in manufacturing industry based on a large stock of expertise as a doctor of engineering. He currently serves as Director of Suzuki Foundation (part-time).

Suzuki Foundation has transactions with The Company and subsidiaries such as endowment which are about 0.01% of consolidated net sales of The Company. There are no special interest between him and The Company. The Company believes that he is sufficiently independent of the management of The Company.

The Company elected Mr. Sakutaro Tanino as Outside Director to receive appropriate advice related to the management of The Company from the international viewpoints based on a large stock of experience and knowledge as a diplomat. He served as Director of Toshiba Corporation until June 2007.

Toshiba Corporation has transactions with The Company which are about 0.05% of consolidated net sales of The Company. There are no special interest between him and The Company. The Company believes that he is sufficiently independent of the management of The Company.

The Company elected Mr. Shin Ishizuka as Outside Company Auditor because he is suitable person to properly conduct audit of The Company based on his experience and professional knowledge as an attorney-at-law. He currently serves as Chairman of the Board of Hamakyorex Co., Ltd., Director of Kinbuturesu Co., Ltd., (Subsidiary of Hamakyorex Co., Ltd.) (part-time), Director of Suzuki Education & Culture Foundation (part-time), and vice chairman of Hamamatsu Chamber of Commerce and Industries. He also served as Director of Chotokan (part-time) until June 2012.

The Company elected Mr. Shintaro Tanino as Outside Director to receive appropriate advice related to the management of The Company.

The Company elected Mr. Masataka Osuka as Outside Company Auditor because he is suitable person to properly conduct audit of The Company based on a long term experiences and knowledge as a management of enterprises. He currently serves as Chairman of the Board of Hamakyorex Co., Ltd., Director of Kinbuturesu Co., Ltd., (Subsidiary of Hamakyorex Co., Ltd.) (part-time), Director of Suzuki Education & Culture Foundation (part-time), and vice chairman of Hamamatsu Chamber of Commerce and Industries. He also served as Director of Chotokan (part-time) until June 2012.
Hamakyorex Co., Ltd. has transactions with subsidiaries of The Company which are less than 0.01% of consolidated net sales of The Company.
Kinbutsurex Co., Ltd. (subsidiary of Hamakyorex Co., Ltd.) has transactions with The Company which are less than 0.01% of consolidated net sales of The Company.
Subsidiaries of Hamakyorex Co., Ltd. have transactions with subsidiaries of The Company which are about 0.02% of consolidated net sales of The Company.
Suzuki Education & Culture Foundation has transactions with The Company such as endowment which are less than 0.01% of consolidated net sales of The Company.
Hamamatsu Chamber of Commerce and Industries has transactions with The Company and its subsidiaries which are less than 0.01% of consolidated net sales of The Company.
Chotokan has transactions with The Company and its subsidiaries which are less than 0.01% of consolidated net sales of The Company.

There are no special interest between him and The Company. The Company believes that he is sufficiently independent of the management of The Company.

The Company elected Mr. Norio Tanaka as Outside Company Auditor because he is suitable person to properly conduct audit of The Company based on a large stock of the experiences and the professional knowledge as a certified public accountant. There are no interest between him and The Company. The Company believes that he is sufficiently independent of the management of The Company.

The Company concluded that all 5 members of Outside Director/Company Auditor have no possibility of causing conflict of interest between them and shareholders, and filed them as independent director/auditor under the rules of the Tokyo Stock Exchange, Inc.
As to independence from The Company with regard to the election of Outside Director/Company Auditor, The Company judges their independence under “Standard of judgment” set by Tokyo Stock Exchange, Inc.
The Company makes decision on important issue regarding to management through discussion in meeting of board of Directors and management council in which principally all Directors and auditors participate. The Company believes that corporate governance of The Company functions sufficiently.

(3) Development of internal control system and risk management system

In order to enhance corporate governance, The Company is making efforts to keep everyone informed about compliance and to strengthen internal control system. The basic policy for construction of internal control system and its development are as follows:

(a) Compliance system for Directors
Directors respect the “Mission Statement” and the “Suzuki Activity Charter” and execute their duties in compliance with the “Rules of the Board of Directors”, the “Approval Procedures” and other rules of The Company, and mutually supervise their execution of duties through meetings of the Board of Directors, etc. And The Company established the “Suzuki Rules of Corporate Ethics” which lays out a set of basic points for Directors and employees to act in a fair and faithful manner in compliance with the laws, regulations, social rules and in-company rules. It is revised whenever necessary by “Corporate Ethics Committee” which promotes corporate ethics in The Company. And Company Auditors audit the execution of duties of Directors in accordance with the audit policies and work responsibilities set by the Board of Company Auditors.

(b) Compliance system for employees
In order to ensure that employees execute their duties in compliance with the law and the Articles of Incorporation of The Company, The Company is making effort to keep everyone informed about the “Suzuki Employees' Activity Charter” which lays out the norms of action of employees, the “Approval Procedures” and the “Job Description” which set up the proceedings of execution of their duties in details, and other rules of The Company. They are revised whenever necessary. Furthermore, in accordance with the “Suzuki Rules of Corporate Ethics”, The Company has developed compliance system for employees including internal report system, and has educated them through various training and in-house seminars regarding compliance. And, in accordance with the “Rule of Internal Auditing”, the audit department audits on the integrity and efficiency of various control systems, organizations and rules, and properness of function of internal control, etc.

(c) Crisis management system
Crisis management procedures are laid down within the “Suzuki Rules of Corporate Ethics” as a countermeasure to crisis that may occur from illegalities and injustices inside/outside The Company, or natural disasters or terrorism, which are impossible for The Company to prevent. When the “Corporate Ethics Committee” finds risks that may cause urgent and serious damages to the corporate management and business operations, the committee immediately sets up a “Crisis Management Task Force” in line with the “Crisis Management Procedures” in order to deal with the crisis. This organization swiftly decides on the policies and measures to be taken against the risk occurred and gives instructions to the appropriate departments and divisions which are then able to communicate each other to solve the problem.
(d) System to ensure proper business operation of the corporate group
To ensure a proper business operation of the corporate group which consists of The Company and its subsidiaries, The Company has established the “Rules of Business Control Supervision”. It is revised whenever necessary. The subsidiaries report to The Company on their business operation and consult with The Company on important matters in accordance with those rules, and departments in charge give guidance and advice to them to enhance their management structure. And our audit department helps to make rules for the subsidiaries, conducts guidance, supporting and auditing for their regulatory compliance. It also promotes efficiency and standardization of their business.

(4) Remuneration for Directors and Company Auditors for current fiscal year
(a) Remuneration paid to Directors and Company Auditors is as follows: (Amount of remuneration: million yen, Number of payees: person)

<table>

</table>

Notes: 1. The amount of remuneration limit for Directors (¥80 million per month) was resolved at the 135th Ordinary General Meeting of Shareholders held on June 28, 2001.
2. The amount of remuneration limit for Company Auditors (¥8 million per month) was resolved at the 123rd Ordinary General Meeting of Shareholders held on June 29, 1989.
3. The maximum amount of remuneration for Directors for stock options as compensation (¥170 million per year) was resolved at the 146th Ordinary General Meeting of Shareholders held on June 28, 2012.
4. The above-mentioned bonuses are recorded as provision for Directors’ bonuses at the end of current fiscal year and treated as expenses of current fiscal year.
5. The above includes 3 Company Auditors who retired at the end of the 146th Ordinary General Meeting of Shareholders held on June 28, 2012.
6. In addition to the above, ¥7 million was paid to 1 retired Director and ¥9 million was paid to 2 retired Outside Company Auditors as retirement benefits for Directors and Company Auditors under the resolution at the 140th Ordinary General Meeting of Shareholders held on June 29, 2006.
7. The following information is disclosed in 147th annual securities report
   • Total amount of consolidated remuneration paid to persons who received consolidated remuneration of ¥100 million or more each.

(b) Policy for determination of the amount of remuneration for Directors and Company Auditors
Remuneration for Directors/Company Auditors consists of basic remuneration, bonuses and stock options with respect to Directors, and basic remuneration and bonuses with respect to Company Auditors.
While The Company discontinued its retirement benefits plan for Directors and Company Auditors at the 140th Ordinary General Meeting of Shareholders, held on June 29, 2006, it has introduced the granting of stock options as compensation with a view toward strengthening Directors’ connection to The Company’s performance and stock price and ensuring that Directors share with shareholders not only the benefits of any increases in the stock price, but also the risks of any declines, pursuant to the approval granted at the 146th Ordinary General Meeting of Shareholders, held on June 28, 2012.

(Director)
As for basic remuneration, the amount of remuneration limit (monthly amount) for all Directors shall be determined by a resolution of an Ordinary General Meeting of Shareholders, and the amount of remuneration for each Director shall be determined by the representative Director who is authorized by the Board of Directors in consideration of the duties and responsibilities of each Director to enhance the corporate value in each fiscal year and on a mid-and long-term basis.
As for bonuses, the Board of Directors will decide on a proposal regarding bonus payments to Directors/Company Auditors in consideration of the management environment and The Company’s performance in each fiscal year, and the representative Director who is authorized by the Board of Directors will decide, pursuant to the approval of an Ordinary General Meeting of Shareholders concerning the total amount of the bonus, the amount of the bonus for each Director that reflects each Director’s achievement of his or her duties and responsibilities.
As for granting stock options as compensation, the Board of Directors will decide, pursuant to the approval of an Ordinary General Meeting of Shareholders concerning the maximum amount of remuneration, etc. with respect to the stock acquisition rights in each fiscal year, the allocation of stock acquisition rights to each Director (excluding Outside Directors).
Management policy

(Company Auditor)
As for basic remuneration, the amount of remuneration limit (monthly amount) for all Company Auditors shall be determined by a resolution of an Ordinary General Meeting of Shareholders. As for bonuses, the total amount of bonuses shall be determined through the approval of an Ordinary General Meeting of Shareholders in each fiscal year. The amount of the basic remuneration and bonus for each Company Auditor shall be determined through consultations among Company Auditors in proportion to each Company Auditor’s duty and responsibility.

(5) Remuneration for Independent Auditor for current fiscal year
(a) The remuneration amount to be paid by The Company to Independent Auditors is ¥87 million.
(b) The remuneration amount to be paid by The Group to Independent Auditors is ¥90 million.
* The amounts shown in (a) and (b) were all paid for audit certification. Because the remuneration amount for the audit under Companies Act of Japan and for the audit under Financial Instrument and Exchange Act of Japan is not divided in the Auditing Agreement between The Company and Independent Auditor and is not be able to be actually divided, the amount described in the above specifies the total of these remuneration amount.

(Reference)
Internal Control Report System under the Financial Instruments and Exchange Act of Japan

Effective from the fiscal year ended March 31, 2009, Internal Control Report System has been applied under the Financial Instruments and Exchange Act of Japan. The Company has established a project team to enhance the system for assessment of the effectiveness of internal controls over the financial reporting.

Our management executive assessed the effectiveness of internal control over financial reporting as of March 31, 2013 in accordance with “On the Setting of the Standards and Practice Standards for Management Assessment and Audit concerning Internal Control Over Financial Reporting (Council Opinions)” published by the Business Accounting Council of Financial Services Agency, The Japanese government. Based on that assessment, our management executive concluded that our Group’s internal control over financial reporting was effective as of March 31, 2013.

Seimei Audit Corporation, The Company’s Independent Auditor, has audited the Internal Control Report made by our management executive, and expressed an unqualified opinion regarding effectiveness of The Group’s internal control over financial reporting as of March 31, 2013.
Financial review

1. Operating results

(1) The operating results by segment

(a) Motorcycle
The net sales decreased by ¥24.5 billion (9.6%) to ¥230.3 billion year-on-year, mainly due to the sales decrease in Europe and Asia. As for the operating income, the operating loss of ¥2.4 billion in the previous fiscal year became an operating loss of ¥11.9 billion.

(b) Automobile
The Japanese domestic net sales increased year-on-year as a result of expanding its sales and strengthening the products such as by the launch of the new WagonR and Spacia. As for the overseas, the net sales increased year-on-year by covering the sales decrease in Europe and the impact of the exchange conversion due to the yen appreciation, with the sales increase in Asia. As a result, the overall net sales of the automobile business increased by ¥88.8 billion (4.0%) to ¥2,297.8 billion year-on-year. Operating income increased by ¥36.1 billion (31.5%) to ¥150.6 billion year-on-year, mainly due to the increase of income in India, Indonesia, and the Japanese domestic automobile business.

(c) Marine and Power products, etc
The net sales increased by ¥1.8 billion (3.6%) to ¥50.2 billion year-on-year. Operating income decreased by ¥1.3 billion (17.7%) to ¥5.9 billion year-on-year.

(2) The operating results by geographical areas

(a) Japan
Despite decrease of export to Europe and other areas, the net sales increased by ¥5.9 billion (0.4%) to ¥1,552.1 billion year-on-year due to increased sales of automobiles in Japanese domestic market. The operating income also increased by ¥22.9 billion (28.8%) to ¥102.5 billion year-on-year. The Group was able to increase the operating income by covering the factors of income decrease of exports such as impact of the exchange rate with the factors of income increase such as the increased sales of automobiles in Japanese domestic market and cost reduction.

(b) Europe
Due to the economic stagnation in Europe, the net sales decreased by ¥48.4 billion (15.8%) to ¥258.3 billion year-on-year. Operating income of ¥2.2 billion in the previous fiscal year became an operating loss of ¥1.1 billion.

(c) Asia
The net sales increased by ¥111.8 billion (12.9%) to ¥981.0 billion year-on-year mainly due to increased sales of automobiles in India, Indonesia and Thailand. The operating income increased by ¥6.5 billion (20.5%) to ¥38.1 billion year-on-year.

(e) Other areas
Sales decreased by ¥8.3 billion (4.7%) to ¥169.1 billion year-on-year. Operating income increased by ¥0.5 billion (19.1%) to ¥3.1 billion year-on-year.

(3) Selling, general and administrative expenses
In the current consolidated fiscal year, the amount of selling, general and administrative expenses increased by ¥36.9 billion (7.7%) to ¥514.5 billion year-on-year because of increase of advertising expenses and research & development expenses.

(4) Other income and expenses
In the current consolidated fiscal year, the net amount of other income and expenses was a loss of ¥5.2 billion, which increased ¥2.6 billion year-on-year. This was mainly due to loss on liquidation of subsidiaries and affiliates despite profit from financial activities and others.
(5) Forecasts for the next fiscal year
As for the next fiscal year, while the exchange environment is improving and the sales in the growing markets such as India and ASEAN are increasing, increase of depreciation and research and development expenses due to increased investments to support those growths would be expected. But The Group will work as one to reform in every field to accomplish more than the below forecasts for the consolidated operation by developing the business activity.

(Announced on August 1, 2013)

* The forecasts for the next fiscal year mentioned above are based on currently available information and assumptions, contain risks and uncertainty and do not constitute guarantees of future achievement. Please note that the actual results may greatly vary by the changes of various factors. Those factors, which may influence the actual results, include economic conditions and the trend of demand in major markets and the fluctuations of foreign exchange rate (mainly US dollar/Yen rate, Euro/Yen rate, Indian Rupee/Yen rate).

2. Liquidity and capital resources
(1) Cash flow
Cash flow provided by operating activities for FY2012 amounted to ¥190.1 billion (¥226.7 billion was provided in the previous fiscal year), and ¥210.6 billion was used for the acquisition of property, plant and equipment etc. in the investment activities (¥93.6 billion was used in the previous fiscal year). As a result, free cash flow amounted to ¥20.5 billion of negative (¥133.1 billion of positive for the previous fiscal year). In financing activities, ¥33.6 billion was used in redemption of bonds with subscription rights to shares which amounted ¥150.0 billion and others (¥56.5 billion was used in the previous fiscal year). As a result, the balance of cash and cash equivalents at the end of FY2012 amounted ¥661.1 billion and decreased by ¥49.4 billion from the end of previous fiscal year.

(2) Demand for money
During the current consolidated fiscal year, The Company and consolidated subsidiaries invested a total ¥169.3 billion of capital expenditures on various areas such as development of new model and research & development. Capital expenditure project for the next fiscal year is ¥270.0 billion. The required fund will be covered mainly by our own funds.

3. Significant accounting policies
For information regarding significant accounting policies, please refer to the Notes to Consolidated Financial Statements.

* An amount less than 100 million yen has been rounded off in “financial review” section.
4. Risks in operations

Risks that may affect the management results, stock price and financial situation of The Group include the followings.
Forward-looking statements in this section are based on our conclusions as of March 31, 2013.

Risk relating to markets

(1) Change in economic situations, demand fluctuation in the markets

The long term economic slowdown, world economic deterioration and financial crisis, and the reduced buying motivation of the consumers may lead to a substantially reduced demand for the products of The Group including motorcycles, automobiles and outboard motors.

In addition, we conduct businesses around the world, and our dependency on the overseas manufacturing plants especially in the developing countries of the Asian regions has been increasing over the years. The unexpected situation in these markets such as the rapid change in the economic situations may affect the performance of The Group. Further, unexpected change or new application of tax systems in each country may also affect the performance and financial conditions of The Group.

(2) Severer competitions with other companies

We are facing competitions with rival companies in every global market where we conduct our businesses. As the automobiles and motorcycles industries in the world are globalized further, competitions may get harder. Competitions with other companies include various aspects such as product quality, safety, price, environmental performance, as well as efficiency of product development and manufacturing system, establishment of sales and service systems and sales finance.

We will make further efforts for maintaining and improving our competitive edges, but there may be risks that impede our competitive advantages.

Risk relating to business

(1) New product development and launching abilities

It is very important for an automobile and motorcycle manufacturer to correctly understand customer needs and to develop and launch to the market new attractive products that satisfy the customers in a timely manner. It has become more important than ever to understand customer needs that rapidly change, such as the reduced demands caused by domestic and overseas economic slowdown and the increased interest in the environmental performance.

In addition, launching of new products will require specific product development abilities as well as abilities to continually manufacture products in addition to appropriately understanding customer needs.

However, even if we are able to appropriately understand the customer needs, we may not be able to develop new products matching the customer needs in a timely manner on account of technical abilities, procurement of parts, production capabilities and other factors. If we are unable to launch products matching the customer needs to the market in a timely manner, the sales share and sales may be reduced, which may adversely affect the performance and financial conditions of The Group.

(2) Change in product prices and purchase prices, dependence on specific suppliers

Various factors including a rapid change in demands, insufficient supply or price rise of specific parts and raw materials, unstable economic conditions, revisions of import regulations and harder price competition may rapidly change the product prices and purchase prices of The Group. There is no guarantee that such rapid price change does not last long or such change does not occur in the markets where there have not been such changes so far. Rapid changes in product prices and purchase prices may adversely affect the performance and financial positions of The Group in any market where we conduct our businesses.

In addition, the procurement of some of the parts has been limited to specific suppliers on account of technical abilities, quality, and price competitiveness. If we are unable to obtain the parts continuously and stably on account of unforeseeable accidents of the suppliers, it may adversely affect the performance and financial conditions of The Group.

(3) Business development in various countries in the world

We have been conducting our businesses in various countries in the world, and in some of the countries, we conduct joint ventures with local companies in accordance with local laws or other requirements. These businesses are restricted by various legal and other regulations in each country (including those related to tax, tariff, overseas investment and fund transfer to the home country). Any changes to such regulations, management policies of the joint venture partners or management environment may adversely affect the performance and financial conditions of The Group.
(4) Fluctuations of exchange rates and interest rates
We export motorcycles, automobiles, outboard motors and related parts to various countries in the world from Japan. In addition, we export those products and parts from the overseas manufacturing plants to multiple other countries. Fluctuations of exchange rates may adversely affect the performance and financial conditions of The Group as well as our competitiveness. Further, the exchange fluctuations will affect the price setting of the products sold by The Company in foreign currencies as well as the price of the raw materials purchased. The ratio of the overseas sales has reached 60 percent of consolidated sales for the current consolidated fiscal year, and transactions in foreign currencies account for significant part. We take hedging measures such as forward exchange contracts to reduce the risks of exchange-rates and interest-rates fluctuations, but it is impossible to hedge every risk, and the yen appreciation against other currencies may adversely affect the performance and financial conditions of The Group. On the contrary, the yen depreciation may result in opportunity losses.

(5) Government regulations
Various legal regulations are applied to the motorcycle, automobile and outboard motor industries in relation to the emission level of emission gas, mileage, noises, safety and contaminated material emission level from the manufacturing plants. These regulations may be revised, in many cases strengthened. Expenses to comply with these regulations may largely affect the performance of The Group. In addition, many governments determine the imposition of tariffs, price control regulations and exchange control regulations. The Group is paying expenses to comply with these regulations and will expect to continue bearing them. We may pay more expenses depending on the establishment of new laws or changes of existing laws. Further, unexpected changes or new application of tax systems and economic measures of each country may adversely affect the performance and financial conditions of The Group.

(6) Quality assurance
We place the top priority on the product safety and make efforts to establish the quality assurance system from development to sales. We buy insurance for the product liability, but there are risks not covered by insurance. The occurrence of large expenses for a large-scale recall to ensure safety of the customers may adversely affect the performance and financial conditions of The Group.

(7) Alliance with other companies
We conduct various alliance activities with automobile manufacturer around the world and other companies for research and development, manufacturing, sales and finance, but factors that can not be controlled by The Group such as situations inherent to the alliance partners may adversely affect the performance and financial conditions of The Group.

(8) Legal proceedings
We may become a party to lawsuits and other legal proceedings in the course of our business activities. In the case where any judgments disadvantageous to us are made in such legal proceedings, they may adversely affect the performance and financial conditions of The Group.

(9) Influences of natural disasters, wars, terrorism and strikes, etc.
The major manufacturing plants of The Group in Japan conduct manufacturing activities, located mainly in the Tokai region. In addition, the head office and other facilities of The Company are also concentrated in the Tokai region. Any occurrences of Tokai and Tonankai earthquake may largely affect adversely the performance and financial condition of The Group. We have taken various preventive measures such as quake-resistant measures for buildings and facilities, fire preventive measures, establishment of business recovery plans, purchases of earthquake insurances to minimize the influences of damage by such disasters. We also conduct businesses around the world and are subject to number of risks relating to our overseas operations. Such risks include political or social instability and difficulties, natural disasters, diseases, wars, terrorism and strikes. These unexpected events may delay or suspend the purchase of raw materials and parts, manufacturing, sales of products, logistics and provision of services. If such delay or suspension caused by any of these factors occur or prolong, they may adversely affect the performance and financial conditions of The Group.

Further, there are various risks other than those mentioned above, and what have been stated in this section do not represent all the risks of The Group.
## Five-Year Summary

The accompanying Notes to Consolidated Financial Statements are an integral part of these statements.
Notes to Consolidated Financial Statements

NOTE 1: Basis of presenting consolidated financial statements

The accompanying consolidated financial statements of Suzuki Motor Corporation (The Company) have been prepared on the basis of generally accepted accounting principles and practices in Japan, and the consolidated financial statements were filed with the Financial Services Agency as required by the Financial Instruments and Exchange Act of Japan. The preparation of the consolidated financial statements requires the management to select and adopt accounting standards and make estimates and assumptions that affect the reported amount of assets and liabilities, revenue and expenses, and the corresponding methods of disclosure.

As such, the management's estimates are made reasonably based on historical results. But due to the inherent uncertainty involved in making estimates, actual results could differ from these estimates. For the convenience of readers outside Japan, certain reclassifications and modifications have been made to the original consolidated financial statements.

As permitted, an amount of less than one million yen has been omitted. For the convenience of readers, the consolidated financial statements, including the opening balance of shareholders' equity, have been presented in U.S. dollars by translating all Japanese yen amounts on the basis of 94.05 to U.S. $1, the rate of exchange prevailing as of March 29, 2013. Consequently, the totals shown in the consolidated financial statements (both in yen and in U.S. dollars) do not necessarily agree with the sum of the individual amounts.

NOTE 2: Summary of significant accounting policies

(a) Principles of consolidation

The consolidated financial statements for the years ended March 31, 2013 and 2012, include the accounts of The Company and its significant subsidiaries and the number of consolidated subsidiaries are 135 and 138 respectively. All significant intercompany accounts and transactions are eliminated in consolidation. Investments in affiliated companies are accounted for by the equity method.

The difference at the time of acquisition between the cost and underlying net equity of investments in consolidated subsidiaries (goodwill) and in affiliated companies accounted for under the equity method is, as a rule, amortized on a straight-line basis over a period of five years after appropriate adjustments.

The account settlement date of 30 consolidated subsidiaries is December 31, but Magyar Suzuki Corporation Ltd. and 4 others are consolidated based on the financial statements of provisional account settlement as of March 31. Other 25 subsidiaries are consolidated with the financial statements based on their respective account settlement date.

The account settlement date of other consolidated subsidiaries is the same as the consolidated account settlement date.

(b) Allowance for doubtful accounts

In order to allow for loss from bad debts, estimated uncollectible amount based on actual ratio of bad debt is appropriated as to general receivable. As for specific receivable with higher default possibility, possibility of collection is estimated respectively and uncollectible amount is appropriated.

(c) Provision for product warranties

The provision is appropriated into this account based on the warranty agreement and past experience in order to allow for expenses related to the maintenance service of products sold.

(d) Provision for recycling expenses

The provision is appropriated for an estimated expense related to the recycle of products of The Company based on actual sales.

(e) Provision for product liabilities

With regards to the products exported to North American market, to prepare for the payment of compensation, not covered by “Product Liability Insurance” the anticipated amount to be borne by The Company is computed and provided on the basis of actual results in the past.

(f) Short-term investment securities and Investment securities

The Company and its subsidiaries hold securities of listed companies, which have a risk of price fluctuations, and non-listed companies whose stock prices are difficult to be evaluated.

If we judge the decline in investment value is not temporary, we recognize revaluation loss based on the reasonable standard.

If the stock market falls, we may incur significant loss on valuation of securities.

Securities have to be classified into four categories: trading securities; held-to-maturity debt securities; investments of The Company in equity securities issued by consolidated subsidiaries and affiliates; and available-for-sale securities.

According to this classification, securities held by The Company and its subsidiaries are available-for-sale securities. Available-for-sale securities for which market quotations are available are stated at market value method based on the market values as of the consolidated account settlement date (The evaluation differences shall be reported as a component of net assets, and sales costs shall be calculated mainly by the moving average method).

Available-for-sale securities for which market quotations are unavailable are stated at cost by a moving average method.
(g) Hedge accounting
Gains or losses arising from changes in fair value of the derivatives designated as “hedging instruments” are deferred until the gains and losses on the hedged items or transactions are recognized.
If foreign currency forward contracts meet certain criteria, exceptional hedge accounting is applied and these contracts are handled together with hedged items.
The derivatives designated as hedging instruments by The Company and its subsidiaries are principally forward exchange contracts, interest swaps and cross currency interest rate swaps. The related hedged items are foreign currency denominated transaction and borrowings.
The Company and its subsidiaries have a policy to utilize the above hedging instruments in order to reduce our exposure to the risk of interest rate and foreign exchange fluctuation. Thus, our purchases of the hedging instruments are limited to, at maximum, the amounts of the hedged items. The Company and its subsidiaries evaluate effectiveness of its hedging activities by reference to the accumulated gains or losses on the hedging instruments and the related hedged items from the commencement of the hedges.

(h) Foreign currency translation
All monetary assets and liabilities denominated in foreign currencies, whether long-term or short-term are translated into Japanese yen at the exchange rates prevailing at the balance sheet date. Resulting gains and losses are included in net income or loss for the period.
Assets and liabilities of the foreign subsidiaries and affiliates are translated into Japanese yen at the exchange rates prevailing at the balance sheet date.
The components of net assets are translated into Japanese yen at their historical rates. Profit and loss accounts for the year are translated into Japanese yen using the average exchange rate during the year. Differences in yen amounts arising from the use of different rates are presented as “foreign currency translation adjustments” and “minority interests” in the net assets.

(i) Inventories
Stated at cost mainly determined by the gross average method (Figures on the consolidated balance sheet are measured by the method of book devaluation based on the reduction of profitability)

(j) Method of depreciation and amortization of significant depreciable assets
   a. Property, plant and equipment (excluding lease assets)
      .......................... Mainly declining balance method for The Company and domestic subsidiaries and mainly straight-line method for foreign subsidiaries
      Main durable years are as follows
      Buildings and structures  3 to 75 years
      Machinery, equipment and vehicles  3 to 15 years
   b. Intangible assets (excluding lease assets)
      .......................... Straight line method
   c. Lease assets
      Finance lease which transfer ownership
      .......................... The same method as depreciation and amortization of self-owned noncurrent assets.
      Finance lease which do not transfer ownership
      .......................... Straight-line method with the lease period as the durable years. As to lease assets with guaranteed residual value under lease agreement, remaining value is the guaranteed residual value. And as to other lease assets, remaining value would be zero.

(k) Income taxes
The provision for income taxes is computed based on the income before income taxes included in the consolidated statements of income. The assets and liability approach is adopted to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. In making a valuation for the possibility of collection of deferred tax assets, The Company and its subsidiaries estimate their future taxable income reasonably. If the estimated amount of future taxable income decrease, deferred tax assets may decrease and income taxes expenses may be posted.
Consolidated tax payment has been applied to The Company and its domestic wholly owned subsidiaries since FY 2011.
(l) Retirement benefits
In order to allow for payment of employees' retirement benefits, based on estimated amount of retirement benefits liabilities and pension assets at the end of the current consolidated fiscal year, the allowable amount which occurs at the end of the current consolidated fiscal year is appropriated.
With regard to prior service costs, the amount, prorated on a straight line basis over the certain period within average length of employees’ remaining service years at the time when it occurs, is treated as expense. As for the actuarial differences, the amounts prorated on a straight line basis over the certain period within average length of employees’ remaining service years in each fiscal year in which the differences occur are respectively treated as expenses from the next term of the fiscal year in which they arise.
As for Directors and Company Auditors of The Company, the amount to be paid at the end of fiscal year had been posted pursuant to The Company’s regulations on the retirement allowance of Directors and Company Auditors. However, The Company's retirement benefit system for them was abolished at the closure of the Ordinary General Meeting of Shareholders held on June 2006. And it was approved at Ordinary General Meeting of Shareholders that reappointed Directors and Company Auditors were paid their retirement benefit at the time of their retirement, based on their years of service. Estimated amount of such retirement benefits is appropriated at the end of the current consolidated fiscal year.
Furthermore, for the Directors and Company Auditors of some consolidated subsidiaries, the amount to be paid at the end of the year was posted pursuant to their regulation on the retirement allowance of Directors and Company Auditors. Retirement benefit cost and retirement benefit obligation are calculated based on the actuarial assumptions, which include discount rate, assumed return of investment ratio, revaluation ratio, salary rise ratio, retirement ratio and mortality ratio. Discount rate is decided on the basis of yield on low-risk, long-term bonds, and assumed return of investment ratio is decided based on the investment policies of pension assets of each pension system etc.
Decreased yield on long-term bond leads to a decrease in discount rate and has an adverse influence on the calculation of retirement benefit cost. However, the pension system adopted by The Company has a cash balance type plan, and thus the revaluation ratio, which is one of the base ratios, can reduce adverse effects caused by a decrease in the discount rate.
If the investment yield of pension assets is less than the assumed return of investment ratio, it will have an adverse effect on the calculation of retirement benefit cost. But by focusing on low-risk investments, this influence should be minimal in the case of the pension fund systems of The Company and its subsidiaries.

(m) Provision for disaster
Reasonably estimated amount is appropriated for anticipated loss mainly caused by relocation of plants and facilities located in the Ryuyo Region in Iwata City, Shizuoka Prefecture where massive tsunami damages caused by Tokai and Tonankai Earthquake are anticipated.

(n) Provision for loss on liquidation of subsidiaries and affiliates
Reasonably estimated amount is appropriated for anticipated loss caused by liquidation and restructuring of businesses operated by subsidiaries and affiliates.

(o) Revenue recognition
Sales of products are generally recognized in the accounts as deliveries are made.

(p) Net income per share
Primary net income per share is computed based on the weighted average number of shares issued during the respective years. Fully diluted net income per share is computed assuming that all convertible bonds were converted into common stock, with an applicable adjustment for related interest expense and net of tax. Cash dividends per share are the amounts applicable to the respective periods including dividends to be paid after the end of the period.

(q) Cash and cash equivalents
All highly liquid investments with original maturities of three months or less when purchased are considered cash and cash equivalents.

(r) Reclassification
Certain reclassifications of previously reported amounts are made to conform with current classifications.
NOTE 3: Changes in Accounting Principles and Accounting Estimates

Change in Accounting Principles which is difficult to be distinguished from Changes in Accounting Estimates

In accordance with revisions of the Corporation Tax Act, The Company and its domestic consolidated subsidiaries have revised the method of depreciation which is based on the revised Corporation Tax Act for property, plant and equipment acquired on or after April 1, 2012 from this fiscal year.

The impact of this change on operating income, ordinary income and income before income taxes was immaterial.

NOTE 4: Financial Instruments

(a) Matters for conditions of financial instruments

   a. Policy for financial instruments
   As for the fund management, The Group uses short-term deposits and short-term investment securities, and as for the fund-raising, The Group uses borrowings from financial institutions such as banks and issuance of bonds. The Group uses derivatives to hedge and manage the risks of interest-rates and exchange-rates fluctuations, and does not use derivatives for speculation purposes.

   b. Type of financial instruments, risks and risk management
   With respect to customers’ credit risks from operating receivables such as notes and accounts receivables-trade, in order to mitigate the risks, The Group identifies credit standing of major counterparties and manages due date and receivable balance of each counterparty in line with our rules and regulations for credit control. The Group hedges risks of exchange-rate fluctuations from operating receivables denominated in foreign currency by forward exchange contract in principle.

   Investment securities are mainly stocks of companies with which The Group has business relationship, and as for listed stocks, The Group quarterly identifies those fair values and reports them to the Board of Directors. Most of accounts payable-trade are due within one year.

   Applications of borrowings are fund for operating capital (mainly short-term) and capital expenditures (long-term), and The Group uses interest-rate swaps for the interest rate risks of some long-term borrowings to fix interest expenses. Also, The Group uses cross currency interest rate swaps for fluctuation of exchange rate in repayment of principle and interest rate risk to fix cash flow.

   Objectives of derivative transactions are foreign currency forward contracts to hedge the risks of exchange-rate fluctuations related to receivables denominated in foreign currencies, interest rate swaps to hedge the risks of fluctuations in interest rate related to borrowings, and cross currency interest rate swaps to hedge the risk of fluctuation in exchange rate and interest rate related to borrowings. The Group executes and manages derivatives within the actual demand in line with our rules and regulations which set out the authority to trade. In addition, in using derivatives, The Group deals with financial institutions which have high credit grade in order to reduce credit risks. With respect to hedge accounting, also please see Note 2 (g).

   In addition, each of The Group company manages liquidity risk related to accounts payable and borrowings by making a financial plan.

   c. Supplement to fair values of financial instruments
   Fair values of financial instruments include values based on quoted prices in active markets and values assessed by rational valuation techniques in case quoted prices are not available. Because the rational valuation techniques include variable factors, the results of valuation may differ when different assumption is applied.
(b) Matters for fair values of the financial instruments

Carrying amounts in the consolidated balance sheet, fair values and difference as of March 31, 2013 and 2012 are as follows. Financial instruments whose fair value cannot be reliably determined are not included in the below table.

(*): Assets or liabilities derived from derivatives are shown on a net basis and net liabilities are shown as ( ).
1. Matters for methods used to measure fair values of financial instruments
   
   **Assets:**
   
a. Cash and deposits
   Because fair values of deposits are approximately equal to the book values, book values are used as fair values.
   
b. Notes and accounts receivables-trade
   Fair values of sales finance receivables are calculated on the discount method by the expected rate applied to new loan contract, on each receivable classified into a certain term. Notes and accounts receivables-trade except sales finance are settled in short term and those fair values are approximately equal to the book values. So book values are used as fair values.
   
c. Short-term investment securities and Investment securities
   These fair values are prices of the stock exchanges. Also please see Note 2 (f).
   
   **Liabilities:**
   
a. Accounts payable-trade, Short-term loans payable and Accrued Expenses
   Because these are settled in short term and those fair values are approximately equal to the book values, such book values are used.
   
b. Current portion of long-term loans payable and Long-term loans payable
   These fair values are measured by discounting based on the estimated interest rates at which similar new loans with same amount of principal and interest could have been borrowed.
   
c. Current portion of bonds with subscription rights to shares
   Fair values of current portion of bonds with subscription rights to shares are measured based on the market value.
   
   **Derivatives:**
   Please refer to Note 4 (d) Derivative transactions

2. Financial instruments whose fair value cannot be reliably determined as of March 31, 2013 and 2012

(d) Derivative transactions

The contract/notional amounts of derivatives which are shown in the below table do not represent The Group's exposure to market risk. As to fair values of derivatives which are shown in the below tables, commodity transactions are valued based on market price. Other transactions are valued based on the price offered by financial institutions.

a. Derivative transactions to which hedge accounting is not applied as of March 31, 2013 and 2012

NOTE 7: Retirement and severance benefit

(a) Outline of adopted retirement benefit systems

As for The Company, cash balance corporate pension plan and lump-sum retirement benefit plan are established. And as for some of consolidated subsidiaries, defined benefit corporate pension plan and lump-sum retirement benefit plan are established.

(b) Component of retirement benefit obligation as of March 31, 2013 and 2012

<table>
<thead>
<tr>
<th></th>
<th>Millions of yen</th>
<th>Thousands of U.S. dollars</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2013</td>
<td>2012</td>
</tr>
<tr>
<td>a. Retirement benefit obligation</td>
<td>¥(108,739)</td>
<td>¥(105,874)</td>
</tr>
<tr>
<td>b. Pension assets</td>
<td>83,842</td>
<td>76,475</td>
</tr>
<tr>
<td>c. Unfunded retirement benefit obligation (a+b)</td>
<td>¥ (24,897)</td>
<td>¥ (29,399)</td>
</tr>
<tr>
<td>d. Unrecognized difference by an actuarial calculation</td>
<td>(810)</td>
<td>1,377</td>
</tr>
<tr>
<td>e. Unrecognized prior service cost (decrease of liabilities)</td>
<td>(4,063)</td>
<td>(4,875)</td>
</tr>
<tr>
<td>f. Net amount in consolidated balance sheet(c+d+e)</td>
<td>(29,771)</td>
<td>(32,896)</td>
</tr>
<tr>
<td>g. Prepaid pension cost</td>
<td>8,131</td>
<td>3,750</td>
</tr>
<tr>
<td>h. Provision for retirement benefits (f-g)</td>
<td>¥ (37,903)</td>
<td>¥ (36,647)</td>
</tr>
</tbody>
</table>

Remarks:  
1) The premium retirement allowance paid on a temporary basis is not included.  
2) Some of subsidiaries adopt simplified methods for the calculation of retirement benefits.

(c) Component of retirement benefit cost for years ended March 31, 2013 and 2012

<table>
<thead>
<tr>
<th></th>
<th>Millions of yen</th>
<th>Thousands of U.S. dollars</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2013</td>
<td>2012</td>
</tr>
<tr>
<td>a. Service cost</td>
<td>¥5,214</td>
<td>¥5,338</td>
</tr>
<tr>
<td>b. Interest cost</td>
<td>2,101</td>
<td>1,760</td>
</tr>
<tr>
<td>c. Assumed return on investment</td>
<td>(699)</td>
<td>(579)</td>
</tr>
<tr>
<td>d. Amortized amount of actuarial difference</td>
<td>1,497</td>
<td>1,155</td>
</tr>
<tr>
<td>e. Amortized amount of prior service cost</td>
<td>(734)</td>
<td>(750)</td>
</tr>
<tr>
<td>f. Retirement benefit cost (a+b+c+d+e)</td>
<td>¥7,379</td>
<td>¥6,923</td>
</tr>
</tbody>
</table>

Remarks: The retirement benefit cost of subsidiaries where simplified methods are adopted is accounted for “a. Service cost”.

(d) Items related to the calculation standard for the retirement benefit obligation

a. Allocation method of the estimated amount of retirement benefits: Straight line basis
b. Discount rate       2013 Mainly 2.00%  
                        2012 Mainly 2.00%
c. Reassessment rate   2013 1.50%    
                        2012 1.50%
d. Assumed return of investment ratio 2013 Mainly 0.77%   
                        2012 Mainly 0.70%
e. Number of years for amortization of prior service cost      Mainly 15 years  
To be amortized by straight line method with certain term within the employees’ average remaining service years at the time when the difference was caused.
f. Number of years for amortization of actuarial difference  Mainly 15 years  
To be amortized from the next fiscal year by straight line method with certain term within the employees’ average remaining service years at the time when the difference was caused.
**NOTE 8: Income taxes**

</tr>
</tbody>
</table>

**NOTE 11: Net assets**

The Companies Act of Japan requires that at least 50% of the contribution of new shares be included in capital stock. The portion to be recorded as capital stock is determined by resolution of the meeting of the board of Directors. Proceeds in excess of the capital stock should be credited to “legal capital surplus”.

The Companies Act provides that an amount equivalent to 10% of cash dividends should be appropriated as a legal capital surplus or legal retained earnings until total amount of them reaches a certain limit, defined as 25% of the capital stock.

The Companies Act allows both legal capital reserve and legal retained earnings to be transferred to the capital stock following the approval at an Ordinary General Meeting of Shareholders.

The legal retained earnings of The Company and its subsidiaries are included in “retained earnings” on the consolidated balance sheet and are not shown separately.

According to the Companies Act, the articles of incorporation allow to repurchase treasury stock and dispose of such treasury stock by resolution of meeting of the board of Directors.
NOTE 12: Other comprehensive income

NOTE 14: Stock option plan

The Company adopts stock option plan by using subscription rights to shares. The plan was adopted at the 146th Ordinary General Meeting of Shareholders and meeting of the board of Directors held on June 28, 2012 and June 27, 2013 based on The Company Act of Japan. The details of the plan are as follows;

1. Resolution date
   June 28, 2012

2. Category and number of people to whom stock options are granted
   10 Directors of The Company (excluding Outside Directors)
   6 Senior managing officers who do not concurrently serve as Directors

3. Class of shares that are the subject of subscription rights to shares
   Common stock of The Company

4. Number of shares
   92,000 shares

5. Amount to be paid for subscription rights to shares
   1 yen per 1 share

6. Period during which subscription rights to shares can be exercised
   From July 21, 2012 to July 20, 2042

7. Terms of exercise of subscription rights to shares
   (1) A person who is allocated subscription rights to shares shall be able to exercise share subscription rights only up until 10th day (the next business day if the 10th day falls on a non-business day) from the day immediately following the date of resignation as The Company’s Director as well as the Senior Managing Officer or Managing Officer without the role of Director being served concurrently.
   (2) If a person who is allocated subscription rights to shares was dead, heir may exercise the rights.

8. Matters relating to assignment of subscription rights to shares
   The acquisition of subscription rights to shares by assignment shall require the approval of the Board of Directors of The Company.

9. Matters relating to subrogation payment
   None

---

1. Resolution date
   June 27, 2013

2. Category and number of people to whom stock options are granted
   7 Directors of The Company (excluding Outside Director)
   10 Senior managing officers and managing officers who do not concurrently serve as Directors

3. Class of shares that are the subject of subscription rights to shares
   Same to the plan adopted at June 28, 2012

4. Number of shares
   49,800 shares

5. Amount to be paid for subscription rights to shares
   Same to the plan adopted at June 28, 2012.

6. Period during which subscription rights to shares can be exercised
   From July 20, 2013 to July 19, 2043

7. Terms of exercise of subscription rights to shares
   Same to the plan adopted at June 28, 2012

8. Matters relating to assignment of subscription rights to shares
   Same to the plan adopted at June 28, 2012

9. Matters relating to subrogation payment
   Same to the plan adopted at June 28, 2012
NOTE 16: Segment Information

1. Outline of Reportable Segments

The reportable segments of The Company are the components of The Company business for which discrete financial information is available, and whose operating results are regularly reviewed by our decision-making body such as Board of Directors to make decisions about resources to be allocated to the segment and to assess its performance.

The Group has three reportable segments of “Motorcycle”, “Automobile” and “Marine and Power products etc.” based on the form of management organization and nature of products and services.

Main products and services of each segment are as follows:

<table>
<thead>
<tr>
<th>Segment</th>
<th>Main products and services</th>
</tr>
</thead>
<tbody>
<tr>
<td>Motorcycle</td>
<td>Motorcycles, All terrain vehicles</td>
</tr>
<tr>
<td>Automobile</td>
<td>Mini vehicles, Sub-compact vehicles, Standard-sized vehicles</td>
</tr>
<tr>
<td>Marine and Power products, etc.</td>
<td>Outboard motors, Engines for snowmobiles, etc., Electro senior vehicles, Houses</td>
</tr>
</tbody>
</table>

2. Methods of measurement for the amounts of net sales, profit or loss, assets and other items for each reportable segment

The accounting policies of the reportable segments are consistent to the description of the “Summary of significant accounting policies” (Note 2).

3. Information about the amounts of net sales, profit or loss, assets and other items by reportable segment (Years ended March 31)

As reference information, operating results by geographical areas were as follows:

(a) The amount of net sales, operating income or loss based on location of The Company and its consolidated subsidiaries (Years ended March 31)

American Suzuki Motor Corporation, a former subsidiary of Suzuki Motor Corporation which distributed automobiles, motorcycles, ATVs, marine products and related parts/accessories in the United States (excluding Hawaii), discontinued distribution of automobiles in this fiscal year. As a result, The Group reviewed classification of geographical areas and changed it from previous five areas, namely “Japan”, “Europe”, “North America”, “Asia” and “Other areas” to four areas, namely “Japan”, “Europe”, “Asia” and “Other areas”. Operating results by geographical areas in previous fiscal year were prepared by using new classification.

* American Suzuki Motor Corporation was liquidated in March 2013

Independent Auditor’s Report

To the Board of Directors of
Suzuki Motor Corporation

We have audited the accompanying consolidated financial statements of Suzuki Motor Corporation and its subsidiaries, which comprise the consolidated balance sheet as at March 31, 2013, and the consolidated statement of income, statement of comprehensive income, statement of changes in net assets and statement of cash flows for the year then ended, all expressed in Japanese Yen, and a summary of significant accounting policies and other explanatory information.

Management’s Responsibility for the Consolidated Financial Statements
Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility
Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Suzuki Motor Corporation and its consolidated subsidiaries as at March 31, 2013, and the consolidated results of their operations and their cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

The amounts expressed in U.S. dollars, which are provided solely for the convenience of the reader, have been translated on the basis set forth in Note 1 to the accompanying consolidated financial statements.
