Dear Dealers/ Repair Companies,

Handling of the used Lithium-ion Battery

The used lithium-ion battery removed from the vehicle requires special treatment for recycling purpose. Follow the steps below to take appropriate action on the used lithium-ion battery.

1. Access the website below.

View or download the manuals of the model concerned in your language.

URL:

https://www.globalsuzuki.com/xev_battery

2. Check the manuals and take appropriate action on the battery according to the manuals.
3. Report the lithium-ion battery serial no: **Europe Only**
 - 1) Hand over the “Privacy Notice for Data processing”* to the customer and explain its contents to the customer.
 - 2) Fill ”The Serial No. report of Lithium-ion Battery”* and send it to Suzuki distributor of your country by FAX, e-mail or suitable way.

*These documents are enclosed with the lithium-ion battery replacement parts.
